## COURSES

**Just Code IT: Front-end development course**

2022

I learned advanced concepts on the front-end side:

- building web apps with VueJs framework
- using REST APIs
- designing the apps UI with Bootstrap
- algorithms and data structures

**Just Code IT: Intro into programming**

2021

I learned about the basics of front-end development with HTML, CSS, Javascript and about the back-end development basics in Java.
